## The World's Most Popular OS

Now built for your desktop.

More than a billion phones and tablets around the world run on Android. As an operating system, Android is customizable, easy-to-use, and all of your favorite apps work perfectly, whether you're on a tablet or smartphone.

Well times have changed. Now, you can extend your apps to your desktop.

NEC brings you the obvious next step in Android phone development. The new UT880 desktop telephone re-invents the office phone, and brings Android functionality to your desk. The UT880 integrates the traditional desktop telephone and an Android tablet into one innovative, feature-packed device. The UT880—revolutionizes your desktop experience.

# Make Upgrading Obsolete

Android development makes obsolete software a thing of the past.

Empowering the  
**Smart Enterprise**

Many businesses are afraid that if they upgrade their phones today, something better will come out tomorrow.

That's why the UT880 desktop phone is built using the most customizable operating system in the world, on one of the most flexible devices there is—the 7 inch Android tablet.

With NEC developed UC applications, UT880 desktop telephone users get the power of Android OS and the capabilities of their favorite NEC phones and technology.

With Android OS support and NEC application development, you can upgrade your phone with the most current releases of your OS and applications, whenever they become available.

# Discover Limitless Possibilities

Technology is evolving at a faster pace than ever before.

To keep up, desktop telephones need to evolve to meet the ever-changing communication demands of today's workforce.

The UT880 provides you with easy access to your NEC Unified Communications (UC) desktop/mobile client. Get UC functionality—corporate directories, presence, instant messaging, unified messaging, and call control—available at your fingertips.

## The UT880 offers you

- > Full seven inch color display with multi-touch capabilities
- > Android OS support
- > USB port
- > Multiline SIP client that emulates any NEC telephone
- > Open interface for application development
- > NEC platform voice functionality and hands-free, wide-band speakerphone
- > Integrated Bluetooth capability
- > Built-in camera for video conferencing

With the UT880, your workforce will be able to take it to the next level with a flexible and extensible device that conforms to multiple working styles and helps improve efficiency and productivity.

# User Experience – Revolutionized

Whether utilizing the emulation of an IP telephone or your UC client, the UT880 gives you a consistent user interface across devices, improving efficiency and revolutionizing the user's experience.
